SUMMARY

Informatics student at President University specializing in Cybersecurity, with experience building secure full-stack applications, designing authentication and access-control systems, and applying SOC practices such as log auditing and threat detection. Skilled in full-stack development, secure system design, and security operations through academic and personal projects. Seeking a Security/Software Engineering internship to apply development skills to real-world defensive systems.

EDUCATION

President University

2024 – 2027

Bachelor of Informatics, Cybersecurity Track, GPA: 3.71/4.00, Relevant Coursework: Network Security, Cryptography, Web Development, Risk Management

PROJECTS

Hookline – Phishing Detection Chrome Extension | *TypeScript, Chrome Extension APIs*

- Built a Chrome extension that detects phishing emails and malicious URLs in real time.
- Implemented typosquatting, homoglyph, and brand-impersonation analysis with explainable detection output.

SEMIS – Secure Employee Management Information System | *MERN Stack*

- Developed a security-first HR system for employee records, attendance, payroll, and leave management.
- Implemented email-OTP MFA, AES-256 encryption, RBAC, and JWT authentication aligned with OWASP best practices.

AI-Assisted Risk Assessment & Security Audit Platform | *Risk Scoring, NIST CSF*

- Built a platform for structured cybersecurity risk assessments with automated risk scoring and vulnerability tracking.
- Generated prioritized remediation steps and client-ready audit reports from assessment results.

SOC Homelab | *Elastic SIEM, Windows, Kali Linux*

- Configured a hybrid SOC home lab shipping Windows and Kali VM logs to an Elastic Cloud SIEM.
- Practiced detection engineering, log analysis, and incident-response workflows.

TECHNICAL SKILLS

Languages & Development: Python, JavaScript/TypeScript, React, Node.js, Flask, SQL, MongoDB, C++, Flutter/Dart, Kotlin, HTML/CSS, REST APIs, Git/GitHub

Security Tools & Operations: Elastic SIEM, Wireshark, Nmap, Burp Suite, SafeLine WAF, TryHackMe labs

Frameworks & Concepts: OWASP Top 10, NIST CSF, JWT, BCrypt, RBAC, MFA, Linux, Windows Administration, Networking

CERTIFICATIONS

- Google Cybersecurity Professional Certificate
- AWS Security Fundamentals
- Information Security Certification (freeCodeCamp)

LANGUAGES

- English – Professional Working Proficiency
- Bahasa Indonesia – Basic
